

Testimonial for GILES PARK – Photographer

Giles Park has taken photographs of students and the school environment of Wakehurst Public School for promotional purposes. He has worked with my students in my company and I found him to be extremely polite, making the whole experience fun for the children and in settings to cater for a range of needs. The settings Giles created were quite imaginative and his vast knowledge and experience is a wonderful asset for anyone who needs a photographer for any purpose.

These high quality photos were used in the Manly Daily and in slide shows to prospective parents. There have also formed an extensive collection of photos from which to draw material for slide shows, the most recent one being the one used to welcome Kindergarten and new parents to our school earlier this year.

Giles also took professional photographs for our School Band Cook Book which was sold to raise funds for the Band. The photos were very creative, of students, cooking and unusual but integral features of our school. Many favourable comments were passed on to me from parents and staff members about how beautiful the cook book was and Giles' photos were a huge part of its success.

I am very pleased to promote Giles as a truly professional photographer, a man who listens to the needs of his client and one who delivers exceptional photographs for specific needs.
